Terms and Conditions

1. **Authorization of Service:** You authorize Austin's Tech Repair Group to receive, handle, open, disassemble, diagnose, test, and repair the device listed above, including taking it to our bench for advanced or board-level work when on-site repair is not possible, and running software diagnostics using any passcode you provide — only as needed to complete and verify the repair. You confirm you own the device or have the owner's permission to authorize service. We service consumer and business electronics only; we do not service medical devices or equipment.
2. **House-Call Fee:** A $35.00 house-call fee applies to every mobile visit, covering travel and a full diagnosis — including disassembly or deep board-level diagnostics when required. It is due at scheduling, is non-refundable in all cases, is charged separately from the repair price, and is **never credited toward a repair**. Estimates are always free.
3. **Estimates & Approval:** We confirm your flat price before beginning work. If hidden damage, corrosion, or additional failures are found during the repair — or a

component-level failure makes the device unrepairable through standard procedures — we will pause, notify you, and obtain your approval before any extra work or charges.

4. **Parts:** Parts for your job are ordered by us through our suppliers and delivered to us; we bring them to your install visit. Because parts are ordered for your specific job, the parts cost is paid upfront before we order. If you cancel after parts are ordered, the parts cost is not refundable, but the parts are yours. If you supply your own part, we will install it as-is; our warranty does not cover customer-supplied parts.
5. **Pre-Repair Condition & Data:** Devices with prior liquid exposure, corrosion, structural damage, or earlier repair attempts are fragile and can fail during normal handling; removing an already-cracked screen or back glass can cause it to break further. We are not responsible for a device that fails because of a pre-existing condition. Diagnostics and repair can result in data loss — **back up your device before service**. We are not responsible for lost data, files, photos, accounts, or settings.
6. **Manufacturer Warranties:** Third-party repair can affect a manufacturer's warranty; unless the manufacturer explicitly states that opening the device does not void the warranty, our work may void it. A device's water-resistance rating cannot be guaranteed after any repair.
7. **Payment:** The balance is due upon completion, before the device is released. We accept Visa, Mastercard, American Express, Discover, Apple Pay, Google Pay, Samsung Pay, Cash App Pay, Afterpay, and cash. We do not accept personal or business checks.
8. **Warranty:** Standard repairs include our 1-Year Limited Warranty on the parts installed and the labor performed for the repair on your invoice. The warranty is void for the affected repair if the device later suffers physical damage, liquid exposure, or is opened or repaired by another party. A covered warranty claim does not incur a second house-call fee. Warranty service requires your original repair invoice or receipt.
9. **Liability:** Our total liability for any claim arising from a repair is limited to the amount you paid us for that repair. We are not liable for incidental or consequential damages, except where caused by our gross negligence or willful misconduct.
10. **Unclaimed Devices:** We will notify you when your repair is complete. Equipment left unclaimed for more than sixty (60) days after that notice will be considered

abandoned and may be disposed of, recycled, or sold to recover costs, as permitted by Ohio law.

11. **Contact About Your Repair:** You agree we may call and text you at the number you provide about your repair — scheduling, status updates, and completion.
12. **Governing Law:** This Agreement is governed by the laws of the State of Ohio. Disputes will first be addressed through good-faith negotiation; if unresolved, they will be submitted to a court of competent jurisdiction in Greene County, Ohio.
